Feature		
Width	Length	Standard Colors
48mm	50M ~ 500M max.	Blue, Red, Green, Yellow, Purple, White, Orange...etc

• Under normal conditions (20 °C ~ 30 °C, avoid high humidity), Shelf Life: 12 months.

Comparison test :

See how our tape protects your packages even in critical environment.

Blue sample - Our product

Red Sample - Other brand's product

Put both blue sample and red sample in test chamber.
Chamber temperature : 50°C

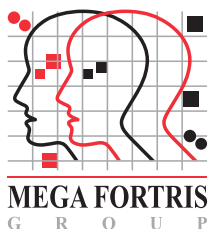

After 7 minutes, the red sample opened without any tamper evidence.

Test after 13 hrs.
(803 minutes)

4

In high environment temperature (such as in container or warehouse), other brand's product fails to protect the package. Only our product still properly guards your packages.
