VIEW APPLICATION GIF

CABLE SEAL

1 The Mini Cable Lock Premium 250 2K is moulded in PP material with non-preformed galvanised steel wire to show clear evidence of tampering.

2 One-way locking mechanism is embedded for fast and easy application. The additional tips at both ends provide greater protection. Mini Cable Lock Premium 250 2K has a grooved design and features an irregular pattern on the body to prevent tampering and give clear evidence of tampering on the identifier.

3 Default rigid body allows for durable usage of the seal while the additional colour on the 2K body improves definition of laser markings, visibility, and identification.

4 Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the body.

5 Biodegradable additives for plastic material are available.

6 Plastic material can withstand extreme weather conditions of -20°C to 80°C.

7 This seal is certified under the "S" category of ISO17712:2013 Clauses 5 and 6.

TECHNICAL SPECIFICATIONS

Customisable cable length upon request.
