**1** The Mini Cable Lock Premium 180 and Mini Cable Lock Premium 180 2K are moulded in PP material with non-preformed galvanised steel wire to show clear evidence of tampering.

2 One-way locking mechanism is embedded for fast and easy application. The additional tips at both ends provide greater protection.

3 Default rigid body allows durable usage of the seal while the additional colour on the 2K body improves laser markings definition, visibility, and identification.

4 Mini Cable Lock Premium 180 2K has a grooved design and features an irregular pattern on the body to prevent tampering and give clear tamper-evidence on the identifier.

5 Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the body.

6 Biodegradable additives for plastic material are available.

7 Plastic material can withstand extreme weather conditions, -25°C to 80°C.
