

INDICATIVE SEAL

FORT DOUBLE TWIN LOCK (FDTL)

Pull-Tight Seal

Double locking mechanism for peace of mind.

Fort Double Twin Lock is special from other indicative plastic seals for its double locking mechanism in one-piece structure. It has locking ribs on both sides of the strap for better gripping and clear signs of tamper evidence. With a full body made of plastic material, full decomposition is achievable.

Applications:

- Retail Applications
- Postal Services
- Logistics
- Banking

PREVENTION • PROTECTION • PEACE OF MIND

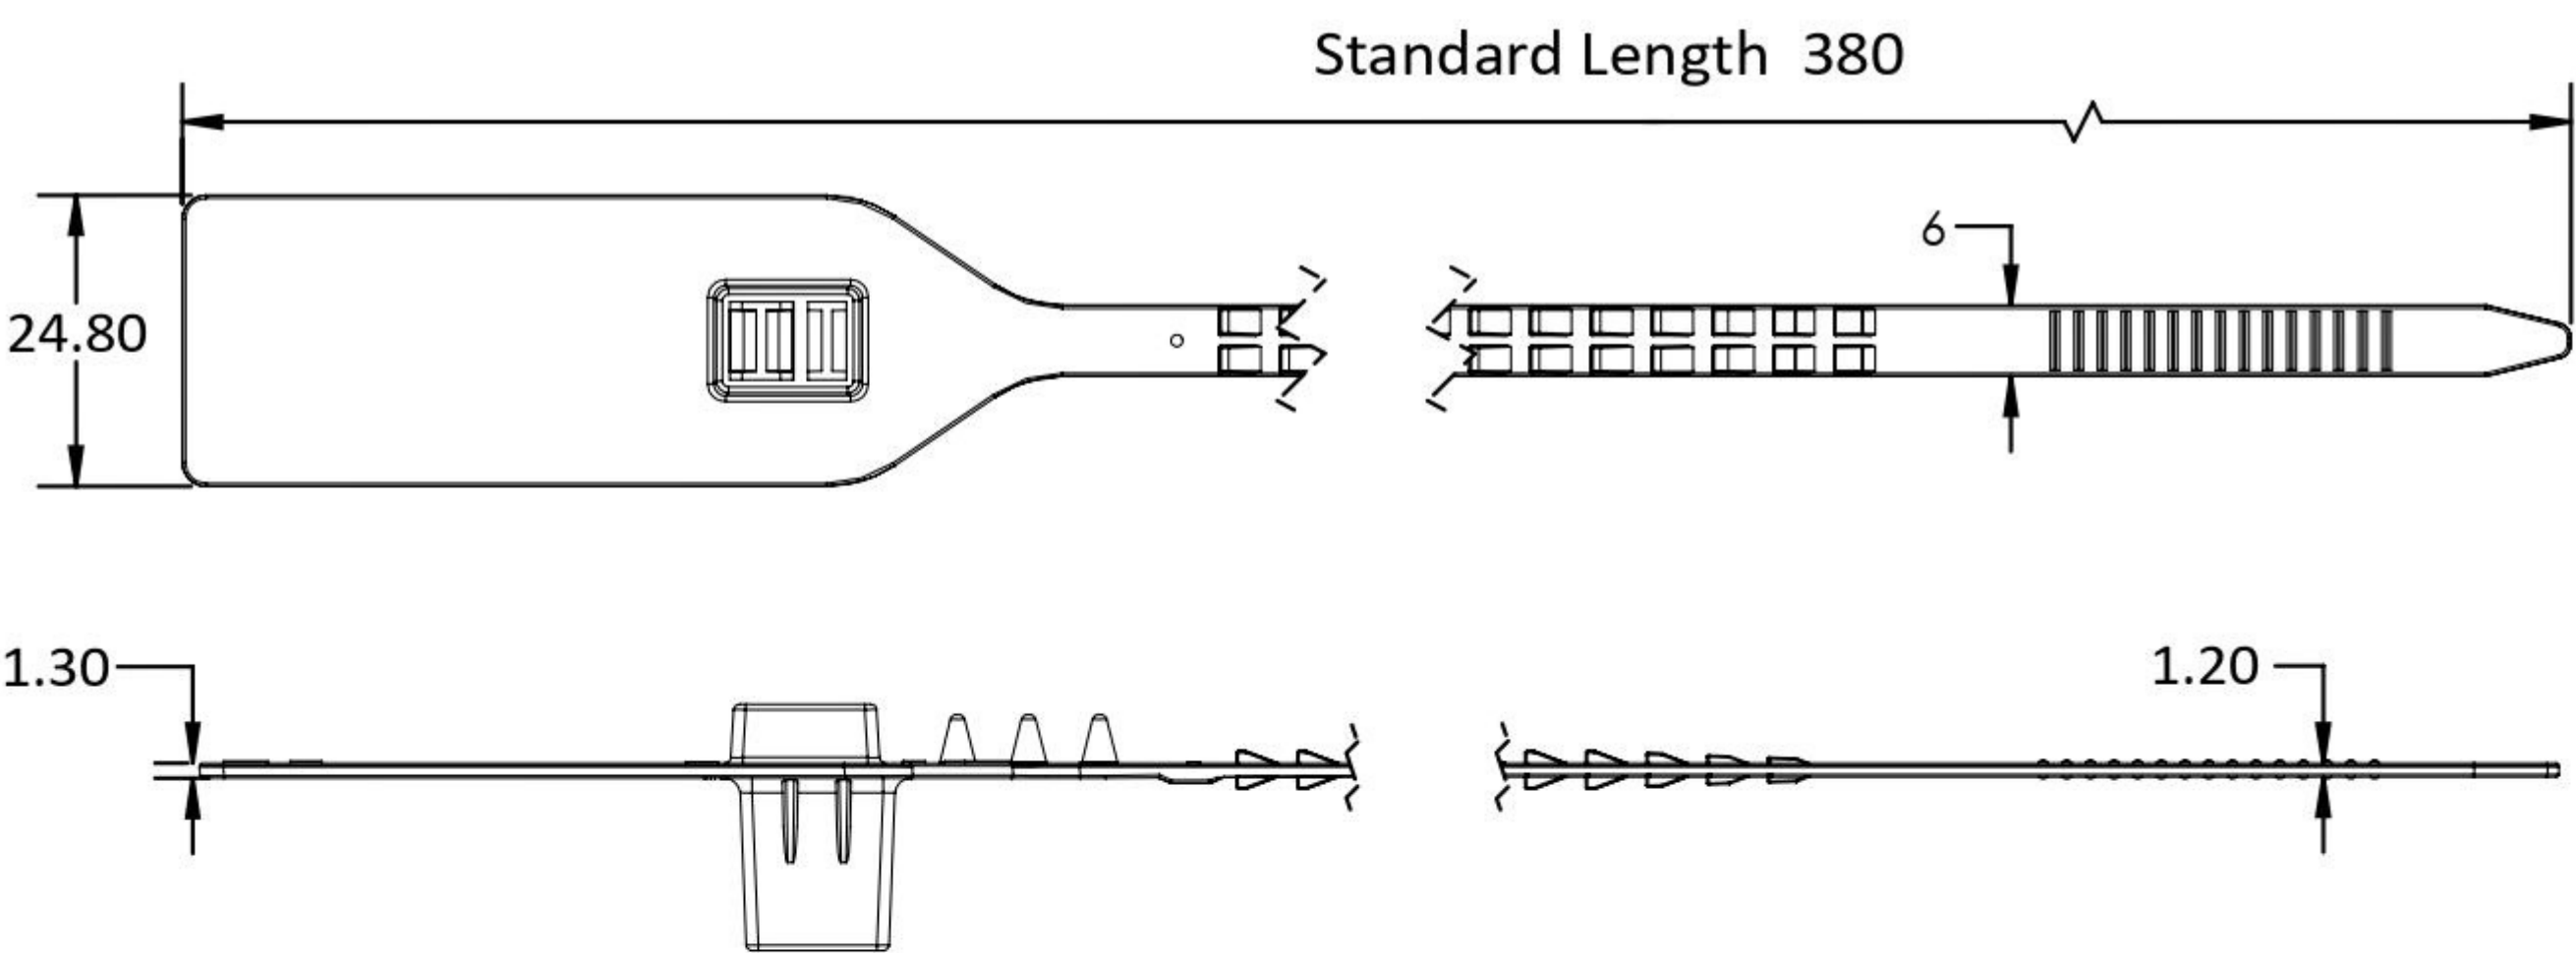

LASER MARKING OPTION

- 1 The Fort Double Twin Lock features a double locking mechanism in its fully high-impact PP moulded body for added security and durability while withstanding extreme weather conditions of -20°C to 80°C.
- 2 The locking ribs on the seal provide better grip and stronger endurance during application. Tamper evidence signs are obvious on the strap.
- 3 Spikes are placed behind the seal to provide better gripping on the application surface.
- 4 The larger flap allows ample space for identifier marking. Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the flap.
- 5 Biodegradable additives for plastic material are available.
- 6 Tear-off (TO) variation is available for easy removal.
